

- GB** Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.
- DE** Elektrische Altgeräte dürfen nicht mit den Haushaltsabfällen entsorgt werden. Bitte recyceln Sie dort, wo entsprechende Einrichtungen vorhanden sind. Fragen Sie bei Ihrer örtlichen Behörde oder Ihrem Händler bzgl. Recycling um Rat.
- FR** Les appareils électriques ne doivent pas être jetés avec les déchets domestiques: pensez à les recycler. Renseignez-vous auprès du revendeur ou de votre commune pour en savoir plus.
- ES** Los productos eléctricos de desecho no deben eliminarse junto con la basura doméstica. Por favor, recicle este producto si existen instalaciones para ello. Consulte con la autoridad local o el distribuidor para que le asesore acerca del reciclaje del producto.
- IT** I rifiuti elettrici non dovrebbero essere eliminati insieme ai normali rifiuti casalinghi. Riciclate quando possibile. Contattate le Autorità Locali o il rivenditore per informazioni riguardanti il riciclo.
- PL** Zużytego sprzętu elektrycznego i elektronicznego nie należy wyrzucać wraz z odpadami komunalnymi. Dlatego zużyty sprzęt należy przekazać do punktu zbierania zużytego sprzętu. W celu uzyskania dalszych informacji należy zwrócić się do władz lokalnych lub sprzedawcy detalicznego.
- PT** Os produtos eléctricos em fim de vida não devem ser eliminados no lixo doméstico. Por favor, recicle nos locais onde existem instalações para isso. Consulte as suas Autoridades Locais ou o revendedor para obter aconselhamento de reciclagem.
- NL** Elektronische producten mogen niet weggegooid worden bij huishoudelijk afval. Recycle indien hiervoor faciliteiten aanwezig zijn. Raadpleeg uw plaatselijke autoriteit of winkel voor meer informatie over recycling.
- GR** Μη απορρίψετε τις άχρηστες ηλεκτρικές συσκευές μαζί με τα οικιακά απορρίμματα. Ανακυκλώστε τις στις κατάλληλες εγκαταστάσεις. Ρωτήστε τις τοπικές αρχές ή τα τοπικά καταστήματα ηλεκτρικών ειδών για την ανακύκλωση ηλεκτρικών συσκευών.
- RU** Электрическое оборудование нельзя выбрасывать вместе с обычным бытовым мусором. Если имеется такая возможность, пожалуйста, сдавайте устройство для вторичной переработки. Рекомендации по утилизации устройства можно получить у продавца или в местных органах власти.

These instructions are for your safety. Please read through them thoroughly before use and retain them for future reference. **GB**

Remove all packaging materials and check that the unit is not damaged before use. Decide on an appropriate location for your product (see sighting instructions below).

INSTALLATION

- Remove all packaging and carefully read instructions.
- Slide off outer casing on front of unit exposing battery compartment. Lift off battery cover and insert 2 x AA alkaline batteries, replace both covers (do not use rechargeable batteries). Batteries not included.
- Thread the Jet-Spray unit onto the top of the sensor housing and tighten carefully by hand to avoid leaks (do not over tighten).
- For high flower beds, or to deter larger target pests, thread the stand-pipe extension onto the bottom of the sensor housing. Otherwise, connect the sensor housing directly to the stake unit, ensuring it is tightened to avoid leaks (do not over tighten).
- Carefully push the stake into the ground in the desired location taking care not to apply direct pressure to the sensor unit housing. In hard ground, make a hole using a spike or fork before pushing the stake into the ground to avoid damage to the unit.
- Ensure the sensor unit is level, pointing in the direction of the area you wish to protect, and that there is no foliage or obstructions in front of the PIR sensor.

Sighting Instructions

- This product is suitable for OUTDOOR USE ONLY.
- Connect garden hose to the unit but do not turn on.
- To test the PIR sensor, turn the dial (on back of unit) fully clockwise to position 9 and wave hand in front of sensor. The valve will open and click, then close again five seconds later.
- Set the sensitivity of the PIR sensor by turning the dial at the back of unit - 0 is off and 9 will sense movement approximately 10 metres in front of the PIR sensor.
- Check the coverage area by waving your hand in front of the PIR sensor until you hear the open click. To adjust the trajectory of the water push down on the black hammer head and turn the dial at the top of the unit (see diagram B).
- The Jet-Spray Pond & Garden Protector's coverage area is arc-shaped. Set the width of the arc by lifting the metal clips and sliding the two green limiters left and right. (see diagram A). The wire clip moves between the two green limiters when the Jet-Spray Pond & Garden Protector is activated. The unit automatically switches direction when the wire clip hits a tab.
- Turn on the water supply and wave your hand in front of the PIR sensor to test. Repeat steps 3-6 to adjust the coverage area as required.

Effective

Detects and repels herons, foxes, cats, squirrels and other nuisance animals in vulnerable garden areas.

Easy Set-up

Uses battery power and a standard quick-fit hose connection in any garden area.

Optional Height

Stand pipe extension for high flower beds or larger target species.

Adjustable Area

0 to 10 metre PIR sensitivity enables variable coverage area up to 100 square metres.

WARNINGS

- This product is suitable for OUTDOOR USE ONLY.
- Do not unscrew/remove back of unit as this will void warranty.
- This product is intended for use as an animal deterrent only - not to be handled by children.
- An adult must carry out battery replacement and installation.
- Remove exhausted batteries from this product.
- Do not use rechargeable batteries.
- Do not mix new and used batteries.
- Do not mix alkaline standard (carbon-zinc) or rechargeable batteries.
- Do not allow any part to come in contact with heat or a direct flame.
- When installing (2 x AA) alkaline batteries in the battery compartment, ensure the batteries are placed as marked (+) (-)
- Only the recommended batteries should be used.
- If any part of the unit is damaged you should stop using it immediately.

CARE AND MAINTENANCE

- Turn the unit off whenever pets are at play in the protected zone, or when gardening or, when other human activity is likely to trigger the unit.
- Do not immerse the unit in water or other liquids
- Do not tamper with the unit's internal components.
- From time to time use a damp cloth to wipe the PIR lens clean.
- Do not use alcohol, benzene or paint thinners
- In severe weather conditions bring the unit inside to prevent frost damage to water feed pipe
