

SAFETY DATA SHEET

Conforms to Regulation EC 1907/2006 (REACH) as amended by Regulation (EU) 2015/830

ZER968 – ZERO IN BED BUG & DUST MITE KILLER

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Zero In Bed Bug & Dust Mite Killer

1.2. Relevant identified uses of the substance or mixture and uses advised against

For use as an insecticide

1.3. Details of the supplier of the safety data sheet

STV International Ltd
Forge House
Little Cressingham
Watton
Thetford
Norfolk
IP25 6ND

+ 44 (0) 1953 881 580 (Office hours only)
info@stvpestcontrol.com

1.4. Emergency telephone number

For product information, contact STV International Ltd on the telephone number stated in section 1.3.

In the event of a medical enquiry involving this product, please contact your doctor or local hospital accident and emergency department.

For urgent medical advice, call the NHS Helpline on 111 (England, Scotland & Wales).
For medical emergencies, dial 999 (UK & Ireland) or 112 from any EU country.

Environmental agency emergency phone number 0800 807060.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification in accordance with Regulation (EC) No 1272/2008

Flam. Aerosol 1; H222, H229
Aquatic Acute 1; H400

Version: 1
Dated: 16/05/2024

Aquatic Chronic 1; H410

2.2. Label elements

Hazard Pictogram

GHS02, GHS09

Signal Word

Danger

Hazard Statements

H222: Extremely flammable aerosol.

H229: Pressurised container: May burst if heated.

H410: Very toxic to aquatic life with long lasting effects.

Precautionary Statements

P102 Keep out of reach of children.

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P211 Do not spray on an open flame or other ignition source.

P251 Do not pierce or burn, even after use. P260 Do not breathe spray.

P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Other labelling required under Regulation (EC) 1272/2008

EUH066 Repeated exposure may cause skin dryness or cracking.

2.3. Other hazards

This mixture does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No 1907/2006 (REACH).

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical Name	CAS/EC No	Classification in accordance with Regulation (EC) 1272/2008	Conc [%]
HYDROCARBONS, C12-C16, isoalkanes, cyclics, <2% aromatics	EC number: 927-676-8	Asp. Tox. 1 - H304	30-60
Butane	106-97-8 203-448-7	Flammable Gas 1; H220	10-30
Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, < 2% aromatics	EC number: 919-857-5	Flam. Liq. 3; H226 STOT SE 3; H336 Asp. Tox. 1; H304	10-30
Cyphenothrin	39515-40-7 254-484-5	Acute Tox. 4; H302 Aquatic Acute 1; H400 Aquatic Chronic 1; H410	<0.5

		M factor (Acute) = 1000 M factor (Chronic) = 1000	
Prallethrin	23031-36-9 245-387-9	Acute Tox. 4; H302 Acute Tox. 3; H331 Aquatic Acute 1; H400 Aquatic Chronic 1; H410 M factor (Acute) = 100 M factor (Chronic) = 100	<0.5

Full text of hazard statements is displayed in section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.

Skin

Wash skin thoroughly with soap and water.

Eyes

Rinse immediately with plenty of water. Get medical attention if any discomfort continues.

Ingestion

Rinse mouth thoroughly with water. DO NOT induce vomiting. Get medical attention immediately.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation - Vapours may cause drowsiness and dizziness.

Ingestion - Nausea, vomiting.

Skin contact - May cause skin irritation/eczema.

Eye contact - May cause temporary eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

No specific recommendations. If in doubt, get medical attention promptly.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Extinguish with carbon dioxide or dry powder.

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

5.2. Special hazards arising from the substance or mixture

Hazardous combustion products:

Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Oxides of carbon. Oxides of nitrogen.

5.3. Advice for firefighters

Protective actions during firefighting:

Containers close to fire should be removed or cooled with water.
Special protective equipment for firefighters:
Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions: For personal protection, see Section 8.

6.2. Environmental precautions

Avoid the spillage or runoff entering drains, sewers or watercourses.

6.3. Methods and material for containment and cleaning up

Avoid contamination of ponds or watercourses with washing down water. Avoid the spillage or runoff entering drains, sewers or watercourses.

6.4. Reference to other sections

Wear protective clothing as described in Section 8 of this safety data sheet.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Eliminate all sources of ignition.

7.2. Conditions for safe storage, including any incompatibilities

Do not store near heat sources or expose to high temperatures. Protect from sunlight.

7.3. Specific end use(s)

The identified uses for this product are detailed in Section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

Substance	CAS number	Workplace Exposure Limit				Comments
		Long-term exposure limit (8-hr TWA reference period)		Short-term exposure limit (15 minute reference period)		
		ppm	mg.m ⁻³	ppm	mg.m ⁻³	
Butane	106-97-8	600	1450	750	1810	The Carc, Sen and Sk notations are not exhaustive. Notations have been applied to the substances identified in IOELV Directives Carc (only applies if LPG contains more than 0.1% of buta-1,3-diene)

8.2. Exposure controls

Version: 1

Dated: 16/05/2024

Engineering controls

Provide adequate ventilation.

Eye/face protection

Wear tight-fitting, chemical splash goggles or face shield.

Hand protection

It is recommended that gloves are made of the following material: Rubber (natural, latex).

Other skin and body protection

Wear protective clothing.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance: Clear aerosol

Odour: Characteristic

Odour threshold: Information not available

pH: Information not available

Melting point/freezing point: Information not available

Initial boiling point and boiling range: Information not available

Flash point: 0°C OC (Open cup).

Evaporation rate: Information not available

Flammability: Extremely flammable aerosol

Upper/lower flammability or explosive limits: Information not available

Vapour pressure: Information not available

Vapour density: Information not available

Relative density: Information not available

Solubility(ies): Insoluble in water.

Partition coefficient: n-octanol/water: Information not available

Auto-ignition temperature: Information not available

Decomposition temperature: Information not available

Viscosity: Information not available

Explosive properties: Aerosol. May explode when heated or when exposed to flames or sparks.

Oxidising properties: Does not meet the criteria for classification as oxidising.

9.2. Other information

None

SECTION 10: Stability and reactivity

10.1. Reactivity

There are no known reactivity hazards associated with this product.

10.2. Chemical stability

Stable under the prescribed storage conditions.

10.3. Possibility of hazardous reactions

No information required.

10.4. Conditions to avoid

Avoid heat, flames and other sources of ignition.

10.5. Incompatible materials

Acids - oxidising.

10.6. Hazardous decomposition products

Version: 1

Dated: 16/05/2024

Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Oxides of carbon. Oxides of nitrogen.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Inhalation: Vapours in high concentrations are narcotic.

Ingestion: Irritating. Symptoms following overexposure may include the following: Nausea, vomiting. Stomach pain.

Eye contact: May cause temporary eye irritation.

Toxicological information on ingredients

Cyphenothrin

Acute toxicity - oral Acute toxicity oral (LD₅₀ mg/kg) 318.0 Species Rat ATE oral (mg/kg) 318.0

Acute toxicity - dermal Notes (dermal LD₅₀) LD₅₀ > 2000 mg/kg, Dermal, Rat Based on available data the classification criteria are not met.

Acute toxicity - inhalation Notes (inhalation LC₅₀) LD₅₀ >1.85 mg/l, Inhalation, Rat Based on available data the classification criteria are not met.

Skin corrosion/irritation Animal data Not irritating.

Serious eye damage/irritation Not irritating. Skin sensitisation

Skin sensitisation Not sensitising.

Germ cell mutagenicity Genotoxicity - in vivo This substance has no evidence of mutagenic properties.

Carcinogenicity There is no evidence that the product can cause cancer.

Reproductive toxicity fertility This substance has no evidence of toxicity to reproduction.

Prallethrin

Acute toxicity – oral Acute toxicity oral (LD₅₀ mg/kg) 417.0 Species Rat

Acute toxicity - dermal Notes (dermal LD₅₀) Based on available data the classification criteria are not met.

LD₅₀ >5000 mg/kg, Dermal, Rat

Acute toxicity inhalation (LC₅₀ dust/mist mg/l) 0.658 Species Rat

Skin corrosion/irritation Animal data Not irritating.

Serious eye damage/irritation Slightly irritating.

Respiratory sensitisation Based on available data the classification criteria are not met. Not determined. Skin sensitisation Not sensitising.

Germ cell mutagenicity Genotoxicity - in vitro Negative. Genotoxicity - in vivo This substance has no evidence of mutagenic properties.

Carcinogenicity There is no evidence that the product can cause cancer.

Reproductive toxicity fertility This substance has no evidence of toxicity to reproduction.

Aspiration hazard Based on available data the classification criteria are not met.

Inhalation Toxic by inhalation.

Ingestion Harmful if swallowed.

Skin contact Not a skin sensitiser. No specific health hazards known.

Eye contact May cause eye irritation.

SECTION 12: Ecological information

12.1. Toxicity

Ecotoxicity

The product contains substances which are toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.

Ecological information on ingredients

Cyphenothrin

Acute aquatic toxicity

LE(C)₅₀ 0.0001 < L(E)C₅₀ ≤ 0.001

M factor (Acute) 1000

Acute toxicity - fish LC₅₀, 96 hours: 0.34 x 10⁻³ mg/l, Algae

Version: 1

Dated: 16/05/2024

Acute toxicity - aquatic invertebrates EC₅₀, 48 hours: 0.43 x 10⁻³ mg/l, Daphnia magna

Acute toxicity - aquatic plants IC₅₀, 72 hours: >0.014 mg/l, Fish

Chronic aquatic toxicity

M factor (Chronic) 1000

Prallethrin

Ecotoxicity Very toxic to aquatic life with long lasting effects.

Acute aquatic toxicity

LE(C)₅₀ 0.001 < L(E)C₅₀ ≤ 0.01

M factor (Acute) 100

Acute toxicity - fish LC₅₀, 96 hours: 0.012 mg/l, Oncorhynchus mykiss (Rainbow trout)

Acute toxicity - aquatic invertebrates EC₅₀, 48 hours: 0.0062 mg/l, Daphnia magna

Acute toxicity - aquatic plants IC₅₀, 72 hours: 4.5 mg/l, Pseudokirchneriella subcapitata

Chronic aquatic toxicity

NOEC 0.0001 < NOEC ≤ 0.001

Degradability Non-rapidly degradable

M factor (Chronic) 100

12.2. Persistence and degradability

There are no data on the degradability of this product.

Cyphenothrin

The product is not readily biodegradable.

Prallethrin

The product is not biodegradable. Photodegradable.

12.3. Bioaccumulative potential

No data available on bioaccumulation.

Cyphenothrin

Bioaccumulative potential: The product is not bioaccumulating.

Partition coefficient : 5.79 - 6.09

Prallethrin

Partition coefficient 4.49

12.4. Mobility in soil

Unknown

Cyphenothrin

Readily absorbed into the soil.

Prallethrin

Readily absorbed into the soil. Not considered mobile.

12.5. Results of PBT and vPvB assessment

This substance is not classified as PBT or vPvB according to current EU criteria.

Cyphenothrin

This substance is not classified as PBT or vPvB according to current EU criteria.

Prallethrin

This substance is not classified as PBT or vPvB according to current EU criteria.

Version: 1
Dated: 16/05/2024

12.6. Other adverse effects

Information not available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal methods

Dispose of contents/container in accordance with all local, regional, national and international regulations.

SECTION 14: Transport information

14.1. UN number

UN1950

14.2. UN proper shipping name

AEROSOLS

14.3. Transport hazard class(es)

2.1

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

14.6. Special precautions for user

Tunnel restriction code (D)

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

This substance is classified and labelled in accordance with Regulation (EC) 1272/2008 and Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments.

15.2. Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

Abbreviations and acronyms

ATE: Acute Toxicity Estimate.

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

CAS: Chemical Abstracts Service.

DNEL: Derived No Effect Level.

EC₅₀: 50% of maximal Effective Concentration.

Version: 1

Dated: 16/05/2024

IATA: International Air Transport Association.

ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air.

IMDG: International Maritime Dangerous Goods.

LC₅₀: Lethal Concentration to 50 % of a test population.

LD₅₀: Lethal Dose to 50% of a test population (Median Lethal Dose).

NOEC: No Observed Effect Concentration.

PBT: Persistent, Bioaccumulative and Toxic substance.

PNEC: Predicted No Effect Concentration.

REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006. UN: United Nations.

vPvB: Very Persistent and Very Bioaccumulative.

Acute Tox. = Acute toxicity

Aerosol = Aerosol

Aquatic Acute = Hazardous to the aquatic environment (acute)

Aquatic Chronic = Hazardous to the aquatic environment (chronic)

Asp. Tox. = Aspiration hazard

Press. Gas (Comp.) = Gas under pressure: Compressed gas

Skin Sens. = Skin sensitisation

STOT SE = Specific target organ toxicity-single exposure

Full text of hazard statements listed in Section 3

H220 Extremely flammable gas.

H222 Extremely flammable aerosol.

H229 Pressurised container: may burst if heated.

H302 Harmful if swallowed.

H304 May be fatal if swallowed and enters airways.

H331 Toxic if inhaled. H336 May cause drowsiness or dizziness.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

Comments

Use only in accordance with label instructions.

The information contained in this data sheet does not constitute the user's own assessment of workplace risks as required by legislation. The information in this data sheet should be considered when undertaking a risk assessment under the COSHH regulations. The information contained within this data sheet is strictly for general guidance only and should not be relied upon over and above this. This data sheet is intended to provide general health and safety guidance on the storage and transportation of the preparation. The information in this data sheet is accurate at the date of publication and will be updated as and when appropriate. No liability will be accepted by STV International Ltd for any loss, injury or damage arising from any failure to comply with the information and advice contained within this data sheet and/or failure to comply with the manufacturer's guidelines, product label data and any associated technical usage literature.

SAFETY DATA SHEET

Conforms to Regulation EC 1907/2006 (REACH) as amended by Regulation (EU) 2015/830

ZER967 – ZERO IN BED BUG TRAPS

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.4. Product identifier

Zero In Bed Bug Traps

1.5. Relevant identified uses of the substance or mixture and uses advised against

Insect control

1.6. Details of the supplier of the safety data sheet

STV International Ltd
Forge House
Little Cressingham
Watton
Thetford
Norfolk
IP25 6ND

+ 44 (0) 1953 881 580 (Office hours only)
info@stvpestcontrol.com

1.4. Emergency telephone number

For product information, contact STV International Ltd on the telephone number stated in section 1.3.

In the event of a medical enquiry involving this product, please contact your doctor or local hospital accident and emergency department.

For urgent medical advice, call the NHS Helpline on 111 (England, Scotland & Wales).
For medical emergencies, dial 999 (UK & Ireland) or 112 from any EU country.

Environmental agency emergency phone number 0800 807060.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification in accordance with Regulation (EC) No 1272/2008
Not classified.

2.2. Label elements

There are no statutory label elements in accordance with Regulation (EC) No 1272/2008.

2.3. Other hazards

This mixture does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No 1907/2006 (REACH).

SECTION 3: Composition/information on ingredients

3.2. Mixtures

This product does not contain any hazardous components that require declaration in accordance with Annex II of Regulation (EC) No 1907/2006 (REACH).

SECTION 4: First aid measures

4.1. Description of first aid measures

This product is not considered to be hazardous to human health. However, if exposure occurs, the following first aid measures should be followed:

Inhalation

Move exposed person to fresh air. If breathing discomfort occurs, seek medical attention.

Skin

Wash contaminated skin with plenty of soap and water. Seek medical attention if skin irritation occurs.

Eyes

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Seek medical attention if eye irritation occurs.

Ingestion

Wash out mouth with water. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

4.2. Most important symptoms and effects, both acute and delayed

This product is not considered to be hazardous to human health. No symptoms, acute or delayed, are expected. If exposure occurs, follow the first aid measures in section 4.1.

4.3. Indication of any immediate medical attention and special treatment needed

No specific advice. Treat symptomatically.

Version: 1

Dated: 16/05/2024

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Water spray, dry chemical, foam, CO₂, or sand. Use any means suitable for extinguishing surrounding fire.

Unsuitable extinguishing media

Not applicable.

5.2. Special hazards arising from the substance or mixture

Toxic or irritating gases may be evolved in the event of fire.

5.3. Advice for firefighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.

No action shall be taken involving any personal risk or without suitable training.

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

No action shall be taken involving any personal risk or without suitable training. No personal protective equipment is required. When dealing with spillage, do not eat, drink or smoke. Wash hands after dealing with spill.

6.2. Environmental precautions

Avoid dispersal of spilt material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product enters the environment in large quantities.

6.3. Methods and material for containment and cleaning up

Small spill

The product is not considered to pose a physical, human health or environmental hazard if spilled. Spillage can be collected manually.

Large spill

The product is not considered to pose a physical, human health or environmental hazard if spilled. Spillage can be collected manually or mechanically. Avoid dispersal of spilt material and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product enters the environment in large quantities.

6.4. Reference to other sections

See section 1 for emergency contact information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

No personal protective equipment is required for the handling and use of this product. Do not eat, drink or smoke whilst handling. Wash hands after handling.

7.2. Conditions for safe storage, including any incompatibilities

Store in original packaging in a cool, dry place. Keep separate from food, drink and animal feed.

7.3. Specific end use(s)

Insect control

Version: 1

Dated: 16/05/2024

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

None

8.2. Exposure controls

Engineering controls

Engineering controls are not required.

Eye/face protection

Eye/face protection is not required for the general handling of this product.

Safety eye wear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid splashes, mists, gases or dusts.

Recommended: Tightly fitting safety glasses/goggles.

Hand protection

Hand protection is not required for the general handling of this product.

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Recommended : (<1 hour) PVC , Nitrile gloves.

Respiratory protection

No personal respiratory protective equipment normally required.

Environmental exposure controls

Steps should be taken to ensure that this product is not released accidentally into the environment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance: Solid.

Odour: Characteristic

Odour threshold: Information not available

pH: Information not available

Melting point/freezing point: Information not available

Initial boiling point and boiling range: Information not available

Flash point: >200°C.

Evaporation rate: Information not available

Flammability: Information not available

Upper/lower flammability or explosive limits: Information not available

Vapour pressure: Information not available

Vapour density: Information not available

Relative density: 0.9185G/CM3 (25oC)

Solubility(ies): Non-soluble in water. Soluble in benzene, toluene, dimethylbenzene, hexane and some non-polar solvents.

Partition coefficient: n-octanol/water: Information not available

Auto-ignition temperature: Information not available

Decomposition temperature: >210°C.

Viscosity: 1.1+0.3Pa.s at 150°C.

Explosive properties: Information not available

Oxidising properties: Information not available

Version: 1

Dated: 16/05/2024

9.2. Other information

None

SECTION 10: Stability and reactivity

10.1. Reactivity

Stable under normal conditions of storage and use.

10.2. Chemical stability

Stable under normal conditions of storage and use.

10.3. Possibility of hazardous reactions

Under normal conditions of storage and use hazardous reactions will not occur.

10.4. Conditions to avoid

Information not available

10.5. Incompatible materials

Information not available.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Toxicity of product

Acute toxicity:	Not expected to be toxic.
Skin corrosion/irritation:	Product is not classified as causing skin corrosion or irritation.
Serious eye damage/irritation:	Product is not classified as causing serious eye damage or irritation
Respiratory or skin sensitisation:	Product is not classified as causing skin sensitisation.
Germ cell mutagenicity:	No information specified.
Carcinogenicity:	No information specified.
Reproductive toxicity:	No information specified.
STOT-single exposure:	No information specified.
STOT-repeated exposure:	No information specified.
Aspiration hazard:	No information specified.

SECTION 12: Ecological information

12.1. Toxicity

Toxicity of product

This product is not classified as hazardous to the environment.

12.2. Persistence and degradability

Information not available.

12.3. Bioaccumulative potential

Information not available.

12.4. Mobility in soil

Information not available

Version: 1

Dated: 16/05/2024

12.5. Results of PBT and vPvB assessment

Information not available

12.6. Other adverse effects

Information not available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal methods

Dispose of contents/container in the household waste in accordance with all local regulations.

SECTION 14: Transport information

14.1. UN number

Not applicable

14.2. UN proper shipping name

Not applicable

14.3. Transport hazard class(es)

Not applicable

14.4. Packing group

Not applicable

14.5. Environmental hazards

Not applicable

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

This substance is classified and labelled in accordance with Regulation (EC) 1272/2008 and Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments.

15.2. Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

Comments

Use only in accordance with label instructions.

The information contained in this data sheet does not constitute the user's own assessment of workplace risks as required by legislation. The information in this data sheet should be considered when undertaking a risk assessment under the COSHH regulations. The information contained within this data sheet is strictly for general guidance only and should not be relied upon over and above this. This data sheet is intended to provide general

Aquatic Acute 1 – H400

Aquatic Chronic 1 – H410

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]:

Hazard Pictograms

Signal word

Warning

Hazard statements

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

Precautionary statements

P102 Keep out of reach of children.

P103 Read label before use.

P273 Avoid release to the environment.

P391 Collect spillage.

P501 Dispose of contents/ container in accordance with national regulations.

Supplemental label
information

EUH208 Contains Chrysanthemum Cinerariaefolium extract. May produce an allergic reaction.

UFI

UFI: 9V90-301W-V00J-GTJV

2.3. Other hazards

This mixture does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) 1907/2006.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable.

3.2. Mixtures

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
BUTOXIDE PIPERONYL	CAS-No.: 51-03-6 EC-No.: 200-076-7 <i>M-factor (Acute) = 1</i> <i>M-factor (Chronic) - 1</i>	1-5	Aquatic Acute 1 – H400 Aquatic Chronic 1 – H410
Pale Refined Pyrethrins (50%)	CAS-No.: - EC-No.: - <i>M factor (Acute) = 100</i> <i>M factor (Chronic) = 100</i>	< 1	Acute Tox. 4 – H302 Acute Tox. 4 – H332 Skin Sens. 1 – H317 Asp. Tox. 1 – H304 Aquatic Acute 1 – H400 Aquatic Chronic 1 – H410

BUTYLATED HYDROXY TOLUENE (LONOL CP)	CAS-No: 128-37-0 <i>M-factor (Acute) = 10</i> <i>M-factor (Chronic) = 10</i>	<1	Aquatic Acute 1 – H400 Aquatic Chronic 1 – H410
---	--	----	--

Full text of H- and EUH-statements: see Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist.

Skin

Rinse with water.

Eyes

Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues.

Ingestion

Rinse mouth thoroughly with water. Get medical advice/attention if you feel unwell. Do not induce vomiting unless under the direction of medical personnel.

Protection of first aiders

First aid personnel should wear appropriate protective equipment during any rescue.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects: The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

Symptoms/effects after skin contact: Prolonged contact may cause dryness of the skin.

4.3. Indication of any immediate medical attention and special treatment needed

No specific advice. Treat symptomatically.

Version: 1

Dated: 16/05/2024

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

5.3. Advice for firefighters

Precautionary measures during fire

Control run-off water by containing and keeping it out of sewers and watercourses.

Protection during firefighting

Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material.

6.2. Environmental precautions

Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.

6.3. Methods and material for containment and cleaning up

For containment

Using a clean shovel, put the material in a dry container and cover without compressing it.

Methods for cleaning up

Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dangerous for the environment. Do not empty into drains. For waste disposal, see Section 13.

Other information

Dispose of materials or solid residues at an authorised site.

6.4. Reference to other sections

See section 1 for emergency contact information.

See section 8 for information on appropriate personal protective equipment.

See section 13 for additional waste treatment information.

Version: 1

Dated: 16/05/2024

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling

Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. Avoid discharge to the aquatic environment.

Hygiene measures

Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions

Store in a well-ventilated place. Keep cool. Keep away from food and drink. Keep container tightly closed. Keep only in original container. Store locked up.

Storage area

Store away from heat. Store in a well-ventilated place.

7.3. Specific end use(s)

The identified uses for this product as detailed in section 1.2.

Usage description

Insecticide

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits

TALC

Magnesium Carbonate TWA – 8hrs: 4 mg/m³ respirable dust; 10 mg/m³ total dust

Magnesium Silicate TWA – 8hrs: 1 mg/m³

SIPERNAT 50 S

TLVs ACGI 10mg/m³ UK EH40/95 3mg/m³ respirable dust, 8 h oes, 6mg/m³ total dust oes

8.2. Exposure controls

Engineering controls

Ensure adequate ventilation. Observe any occupational exposure limits for the product or ingredients.

Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary.

Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Respiratory protection

If ventilation is inadequate, suitable respiratory protection must be worn.

Environmental exposure controls

Version: 1

Dated: 16/05/2024

Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance: Grey, Dusty powder

Odour: Slight.

Odour threshold: Information not available

pH: Information not available

Melting point/freezing point: Information not available

Initial boiling point and boiling range: Information not available

Flash point: Information not available

Evaporation rate: Information not available

Flammability: Information not available.

Upper/lower flammability or explosive limits: Information not available

Vapour pressure: Information not available

Vapour density: Information not available

Relative density: Information not available

Solubility(ies): Slightly soluble in water.

Partition coefficient: n-octanol/water: Information not available

Auto-ignition temperature: Information not available

Decomposition temperature: Information not available

Viscosity: Information not available

Explosive properties: Information not available

Oxidising properties: Not determined.

9.2. Other information

Not known.

SECTION 10: Stability and reactivity

10.1. Reactivity

Information not available

10.2. Chemical stability

Product is stable under normal storage and handling conditions.

10.3. Possibility of hazardous reactions

Under normal conditions of storage and use hazardous reactions will not occur.

10.4. Conditions to avoid

Information not available

10.5. Incompatible materials

Information not available.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Toxicity of product

Toxicological effects

Pyrethrins: LD50 rat (oral) 900-2000 mg/kg. LD50 rat (dermal) >1500 mg/kg. Piperonyl Butoxide: LD50 rat (oral) 7500 mg/kg.

Acute toxicity:	Based on available data the classification criteria are not met.
Skin corrosion/irritation:	Based on available data the classification criteria are not met.
Serious eye damage/irritation:	Based on available data the classification criteria are not met.
Respiratory or skin sensitisation:	Based on available data the classification criteria are not met.
Germ cell mutagenicity:	Based on available data the classification criteria are not met.
Carcinogenicity:	Based on available data the classification criteria are not met.
Reproductive toxicity:	Based on available data the classification criteria are not met.
STOT-single exposure:	Based on available data the classification criteria are not met.
STOT-repeated exposure:	Based on available data the classification criteria are not met.
Aspiration hazard:	Based on available data the classification criteria are not met.

SECTION 12: Ecological information

12.1. Toxicity

Toxicity of product

Aquatic Acute 1 H400 – Very toxic to aquatic life.

Aquatic Chronic 1 H410 – Very toxic to aquatic life with long lasting effects.

12.2. Persistence and degradability

Information not available.

12.3. Bioaccumulative potential

Information not available.

12.4. Mobility in soil

Information not available.

12.5. Results of PBT and vPvB assessment

Information not available.

12.6. Other adverse effects

Information not available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal methods

Dispose of contents/container in accordance with all local, regional, national and international regulations.

Version: 1

Dated: 16/05/2024

SECTION 14: Transport information

14.1. UN number

3077

14.2. UN proper shipping name

Environmentally hazardous substance, solid, N.O.S (CONTAINS Chrysanthemum cinerariaefolium extract, Piperonyl Butoxide and Butylated Hydroxy toluene)

14.3. Transport hazard class(es)

9

14.4. Packing group

3

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

14.6 Special precautions for user

EmS – F-A, S-F

ADR Transport Category – 3

Emergency Action Code – 2Z

Hazard Identification Number (ADR/RID) – 90

Tunnel Restriction Code – (-)

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

This substance is classified and labelled in accordance with Regulation (EC) 1272/2008 and Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments.

Version: 1

Dated: 16/05/2024

15.2. Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways.

RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.

IATA: International Air Transport Association.

ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air. IMDG: International Maritime Dangerous Goods.

CAS: Chemical Abstracts Service. ATE: Acute Toxicity Estimate.

LC₅₀: Lethal Concentration to 50 % of a test population.

LD₅₀: Lethal Dose to 50% of a test population (Median Lethal Dose). EC₅₀: 50% of maximal Effective Concentration.

PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative.

H400 – Very toxic to aquatic life.

H410 – Very toxic to aquatic life with long lasting effects.

Comments

Use only in accordance with label instructions.

The information contained in this data sheet does not constitute the user's own assessment of workplace risks as required by legislation. The information in this data sheet should be considered when undertaking a risk assessment under the COSHH regulations. The information contained within this data sheet is strictly for general guidance only and should not be relied upon over and above this. This data sheet is intended to provide general health and safety guidance on the storage and transportation of the preparation. The information in this data sheet is accurate at the date of publication and will be updated as and when appropriate. No liability will be accepted by STV International Ltd for any loss, injury or damage arising from any failure to comply with the information and advice contained within this data sheet and/or failure to comply with the manufacturer's guidelines, product label data and any associated technical usage literature.
