

Defenders®

HOME & GARDEN PLANT PROTECTION

CALLING ALL GARDEN LOVERS

Defenders have the complete range of sprayers and spreaders for all garden lovers – from novices to experienced ‘old hands’, these products are all easy-to-use, great value for money and sustainable too!

STV036 Recycled Soda Bottle Pressure Sprayer £3.99

For every gardening spraying or spreading job there's a quality Defenders product designed with every garden lover in mind. All Defenders products are made from durable, high quality materials to give many years of serviceable life – and they're all recyclable too.

There's even a version that's designed to turn an old used drinks bottle into a handy pressure spray. So, anyone looking to move away from single use ready-to-use sprays will find a much more sustainable solution in the Defenders range.

Reaching tricky areas with a good quality sprayer is now easy thanks to the unique All-ways home & garden sprayers which work at all angles – even when upside down! They are available in a range of styles and sizes from a 500ml trigger spray up to a 2Litre pressure spray version.

The Defenders range also includes a heavy-duty timber and fence sprayer and a full range of garden pressure sprayers right up to a professional style knapsack sprayer. There's also hose end diluters, granule applicators and a range of attractive indoor houseplant sprayers, all at great value prices.

Nick Hood, STV's Digital Marketing Manager said "We've had lots of great positive reviews from people who've used Defender's products. I think they're easier to understand, they look attractive and they're really good value for money too. Perhaps that's why they're so popular with garden lovers."
